

# AcKuu: Academic Community

## Design and Development of a Social Network Platform for Academic and Research Community

Student: A Priyanka

Supervisor: Zheng Jianmin

Share Information

Connect with one  
another

KuuDoor : Open  
Doors for  
Opportunities

### Tools

Client-side language  
for visually pleasing  
User Interface

Server-side language  
for dynamic and  
interactive web pages

Database for  
storing user data

Cross-platform web server consisting of  
Apache HTTP server and MySQL database.  
Used to run PHP programs

Used to build a collaborative filtering  
based recommendation model

- **Designed for students, professors and researchers to share information pertaining to academics and research while also expanding their network.**
- **No pressure in managing a professional and personal connection simultaneously.**
