

Résumé – in confidence

Patrick Fong Khee Kit

Currently working for: IVT Pte Ltd

Summary

- Technical Training Lead cum Consultant with 22 years of experience. Have been working for IVT in the past 14 years. Having worked in 4 different companies where they are startup divisions and grew the business to a team of contributors.
- Current responsibilities are managing a team of trainers in Asia and delivering trainings for Amazon Web Services (AWS) and AWS Educate, VMWare, ServiceNOW and Dell Technologies in the Asia Pacific and Europe region.
- With my unique experience from the days of networking operating systems to servers/storage technologies. Upskilling to Cloud technologies and its services, I bring a holistic view of the industry with my years of hands on experience.
- As a managed services company, we undertake custom trainings to meet customer's requirements and training needs. I develop custom material as well for public sector sales through our IT training company, Ureka Learning Labs.
- I work closely with top management to steer initiatives in onboarding trainers for new courses to managing certifications of trainers. Responsible for monitoring our regional scheduling of training resources and interacting with partners and customers to better utilize our trainer's time and improving their skillsets.
- At times, I would be involved with VMWare Professional Services team in IVT to design and deploy VMWare products for customers.
- Previously employed as Senior Technical Trainer by Dell Asia Pacific Sdn (Penang, MYS) and MCSB Systems Sdn Bhd (Penang, MYS). Trained on network operating systems, office applications, all Dell products from desktops, laptops to servers and storages.
